

Gate Committee

Tasks and Duties:

Ensure gates are operating correctly.

Ensure gates open and close at correct times – Hwy 70 & Hwy 24 open at 5:30 AM and close at 8:00 PM, Village Green opens at 6:30 AM and closes at 8:00 PM. Hwy 70 & 24 gate timing is software controlled by Door King computer program (Ted Beszterczei). Village Green gate timing is controlled by battery operated timer which is contained within the gate controller (right side upon entering Village Green).

Most problems with gates can be corrected by resetting switches on outside of controller units.

All gates have a battery backup in case of power failure. When power goes out the gates will open and stay open.

All gates have a Siren Operated Sensor (SOS). When emergency vehicles put their siren in the “yelp” position, the gates will open and stay open for 15 minutes.

For purchase of gate opening devices contact Ann Webster – 252-646-5586.

For physical damage to gates – contact EAC (Eastern Access Controls) 252-635-7717. Use video surveillance cameras to gather info that may be needed by Sheriff’s Dept.

For damage or problems with gate controllers – Mark Roche or Ted Beszterczei.

For problems with card reader pedestals – contact Mark Roche or Ted Beszterczei.

Century Link Business Repair – 1-800-786-6272

Acct # 308363656 – 230 Brandywine Blvd – Hwy 70 – 252-240-0669
